Dear Parents/Carers,

Re: Heatwave Advice

With the increase in temperature set to stay for the next week, please remember the following:

- Children cannot wear open toed shoes for health & safety reasons
- Children should always wear socks with shoes
- Sun cream should be applied to your child in the morning before school
- You can send sun cream into school if needed but children will need to be able to apply this themselves, as staff are not able to apply it for them
- Named sun hats should be provided for when outside
- Water bottles should be sent to school every day. Children will be encouraged to drink regularly and can refill their bottles if need be

Kind regards,

School Office
