This passage has incorrect spelling and punctuation. Can you edit and correct it?

yesterday evening at 11pm although I was tired, I decided to watch TV. However, I must have fallen asleep because I woke up with a start to find large green frogs with bulging yellow eyes bobbing on lily pads in my living room. I was stunned and could not believe it! Was I dreaming? They were slimy green frogs, with black, spotted patterns on their backs. One even had the remote control and was changing channels with his long sticky tongue, otherwise I would have switched the TV off. Instead I rose quietly from my chair, a shiver of dread running down my spine.

"Quickly I shouted to my cat, Run away?"

In my hurry to get away, I slipped on the wet floor.

This morning, my living room smelled like a rotting pond and there were scattered lily pads, with froggy footprints, on my carpet. I wondered if there had been a whirlwind which sucked all the frogs out of their pond.
