

# The Hollybrook Headlines

23rd September 2020

## Welcome Back!

It has been lovely to see all the children settling back into school following a very unusual summer! Although many haven't been in school since March, everyone has settled back into their new classes very quickly. It has been a good start to the academic year, we would like to thank everyone for their support and effort in making all our new routines and systems work so well. We will keep everything under review and make any changes as and when they are needed. As the term progresses we may be able to put more events in the diary, but at the moment it will be kept to a minimum in order to adhere to the current Government guidelines.

Marcella Dobson

Headteacher

## Home Reading

We are really excited to be launching our new home reading system over the next two weeks. There will be a letter going out this week and the Infant School will be bringing their new reading diaries home this week, and the Junior School will bring theirs home next week. Please look out for the letter giving you more information.

## Admissions

If you know of anybody that is due to start in the Infants or Juniors in September 2021, please encourage them to look at our websites over the course of the next week, where we will be putting information about applying for a place and further information, as due to Covid we are unable to offer tours of the school.

**Next month the Infant School turns 50! Look out for the letter regarding how we plan to celebrate the event!**

## Sickness Absence

Please continue to use the flow chart that we sent home if you are unsure of whether or not to send your child to school. If your child shows any symptoms for Coronavirus (high temperature, new continuous cough, loss of taste and smell) please call in the absence as you would normally. You will need to follow the current Government guidelines, which can be found on the GOV.UK website, for isolation details and to book a test.

**Please ensure your child knows the importance of good hand hygiene.**
